

Sara Al-Otaibi

Software Engineer

Email: sara.demo@example.com | Phone: +966 5X XXX XXXX | Riyadh, Saudi Arabia

Summary

Backend-focused software engineer with 4 years of experience building and maintaining REST APIs and data pipelines for e-commerce platforms. Comfortable working across the stack, with a recent focus on Python microservices and cloud deployment on AWS.

Experience

Backend Developer - Falcon Retail Tech (2022 - Present)

- Designed and shipped 12+ REST endpoints (FastAPI) powering the mobile checkout flow, cutting average checkout latency by 30%.
- Migrated a monolithic order-processing service into three Dockerized microservices deployed on AWS ECS.
- Wrote automated integration tests (pytest) that reduced production regressions by roughly 40% quarter over quarter.

Junior Developer - Nakhla Software House (2020 - 2022)

- Built internal tooling in Python and Django for inventory tracking used by 35+ warehouse staff.
- Collaborated with a 5-person team using Agile/Scrum, participating in sprint planning and code reviews.

Education

B.Sc. in Computer Science - King Saud University (2016 - 2020)

Skills

Python, FastAPI, Django, PostgreSQL, Docker, AWS (ECS, S3, RDS), Git, REST API design, pytest, basic React for internal dashboards.

Languages

Arabic (native), English (fluent)
